

THE 5
MINUTE
PERSONALITY
TEST

DIRECTIONS:

- Below are ten horizontal lines with four words on each line, one in each column.
- In each line, put the number “4” next to the word that best describes you in that line; a “3” next to the word that describes you next best; a “2” to the next best word, and a “1” by the word that least describes you. On each horizontal line of words, you will then have one “4”, one “3”, one “2”, and one “1”.
- For example: One choice for the first line of words would be as follows:
 - ***3 Likes Authority 4 Enthusiastic 2 Sensitive Feelings 1 Likes***
- ***Instructions***
- Total up the numbers for each vertical column (L, O, G, B).

WHAT DOES IT MEAN?

Now that you've taken the survey, what does it all mean? Each letter (L, O, G, B) stands for a particular personality type. The column with the highest score is your dominant personality type, while the second highest number is your sub-dominant type. While you are a combination of all four personality types, the two types with the highest scores reveal the most accurate picture of your natural inclinations, strengths and weaknesses, and how you will naturally respond in most situations.

The four personality types can be likened to animals to make them easier to understand and remember.

See the Slides below for descriptions of each.
